

# Printing Instructions

- Print your new deck on Letter 8.5 x 11 paper. I recommend you use good quality card stock.
- Preview print or click more settings to ensure it prints at original, 100% size.
- If you would like to print color on the back of the cards, make sure to select Print on Both Sides and Flip on Long Edge under More Settings.
- If you do not want to print color on the back of the cards, only select the Odd Pages: 1,3,5, & 7.
- Once you have printed your cards, cut out cards along cut lines.
- Self Laminate for added sustainability and beauty.

ENJOY YOUR NEW DECK!
